Video useful information

Make your ads clear, easy to understand and have clear instruction with what to do

Technical Requirements

01

- Size: Video creatives can be up to 500MB (Bigger size also possible, please contact us if you need more information)
- Duration: 15, 20, 30 sec (Different duration also possible, please contact us if needed)
- Aspect ratio: Video must have an aspect ratio of 16:9 (640x360) or 4:3 (640x480)
- Clickthrough URL: Make sure the creative has clickthrough URL specified. Note that the clickthrough URL will be opened in a new window

Interaction Requirements

02

- Audio and video must play upon user's click
- Start, stop and mute buttons are required

Format tags

03

- Preferred format: VAST 2.0 and VAST 3.0 - these will allow absolute transparency and will give the client the chance to monitor the activity on their end as well
- Otherwise: video files (previously described) + click and impression trackers. This will allow you to count impressions served and clicks, but for VTR/completion metrics you'll need to rely on Nano's reporting

Content requirements

04

- Most video inventory has the same content requirement as standard creatives. For more information, please see standard display section

Creative best practice tips

What makes a good ad?

- Engaging, on brand design
- Functionality: smooth animation and nothing too distracting or flashy
- Clearly marked CTAs to direct the user to the brand site
- Personalised content
- Strong brand identity

What doesn't make a good ad?

- Generic, bland layout that doesn't help to identify the brand
- Retargeting ads that do not feature any product information or prices
- Lack of personalisation that helps to engage the user
- Potential QA violations, such as no border or CTA
- Poorly thought out or executed animation that doesn't enhance the ad
- Lack of brand identity
